EXPERIENCE

8-Week Summer Internship on AI-Powered Full-Stack Development Department of AI & DS, IGDTUW ⓘ • Building full-stack AI applications using AI agents. • Learned applications of MVC architecture and RESTful principles	Jun 2025 – Aug 2025
8-Week Summer Internship on Python with Machine Learning Centre of Excellence – Artificial Intelligence, IGDTUW ⓘ • Acquired hands-on experience in Python programming and Machine Learning concepts and algorithms. • Enhanced skills in data preprocessing, feature engineering, and algorithm selection for problem-solving.	Jun 2024 – Jul 2024

PROJECTS AND RESEARCH

Path2Zero: Carbon Credit Market Place ⓘ Built a carbon-credit marketplace that authenticates certificates, calculates carbon footprints, generates ESG reports, and enables secure credit purchases. • Developed a carbon credit marketplace with verified certificate authentication and a carbon footprint calculator for individuals and organizations, providing actionable insights and recommendations on carbon credit purchases. • Implemented AI-driven features including a chatbot for user assistance, automated ESG report generation, and integrated a secure payment gateway for end-to-end carbon credit trading.	Feb 2026
SentrySense: AI-Powered Cybersecurity Threat Detection Dashboard ⓘ Building an AI-driven cybersecurity dashboard using Streamlit, Python for real-time threat analysis and predictive defense • Detects and visualizes security threats with dynamic risk scores, anomaly flags, and alert summaries in real-time • Leverages AI for intelligent threat interpretation and response suggestions, enhancing enterprise-level decision-making	Jul 2025
Detection of Phishing Emails Using Machine Learning ⓘ Developed a machine learning model to classify and detect phishing emails • Employed techniques such as feature extraction, natural language processing, and supervised learning to achieve accurate predictions.	Aug 2024

CERTIFICATES

Advanced Industry Practices in Emerging Technologies– IGDTUW Anveshan Foundation: ⓘ Covered topics including Innovation Trends, Applied AI in MarTech, Cybersecurity for Startups, 3D Printing, Robotics Engineering, and AI applications for small businesses.
